TYPE OF USE

Site for industrial production and warehouses

Brief description

KARLA spol. s r.o. is offering for sale land and current structures at this location in the northern part of Bruntál (10 ha). The zone is close to a number of major companies (OSRAM Česká republika s.r.o., ALFUN a.s., Macco Organiques s.r.o., Global Tungsten & Powders spol. s r.o. and others). The land can be used for industrial production and warehouses. The surrounding land offers potential for future expansion of the site. Support is available for the creation of new jobs.
