Brief description

The complex used to be used as a warehouse for aviation components. It is located on the south-eastern edge of the town of Bruntál, near the main road to Olomouc. The main buildings are connected to technical/utilities networks. The complex consists of brick buildings and unbuilt areas. The Marburg complex offers 4 ha of land and 1.1 ha of production/office facilities for a broad range of uses: • as a complete commercial complex including facilities for commerce (shopping), offices and sports/recreation, • as a production/warehouse complex (light industrial production), • as a logistics centre for warehousing and distribution of goods/materials.
