## Brief description

The complex was formerly used by the JUTA company. It is located in Kunov (part of the town of Bruntál) but forms part of the Nové Heřminovy cadastral area; this is an administrative anomaly. The complex formerly produced yarn, textile fabrics, bags and ropes made from natural materials, mainly jute and flax. After the closure of the Kunov factory, the complex was abandoned and remained unused. The complex includes a mill-stream and land with residential buildings (formerly used by the factory workers). A bus stop and train halt are immediately adjacent to the complex.
