military use

### NETWORKING

complete

### 1ST CLASS ROAD OR MOTORWAY WITHIN 10 KM

Yes

### RAILWAYS WITHIN 10 KM

Yes

### AIRPORT WITHIN 50 KM

Yes

### TYPE OF USE

civic amenities

## Brief description

The “Monoblok” complex covers approx. 3.8 ha. The entire complex is enclosed by fencing and is connected to all technical/utilities networks, transport infrastructure and service facilities. The complex includes a main building with office/accommodation facilities, auxiliary buildings and other structures (reception, fuel filling station, temporary cabins, a storage building, a vehicle repair workshop and a carpentry workshop). There is no agricultural or forested land at the complex, which is classified as either built-up areas or other areas. Currently the “Monoblok” complex can be divided into two parts: 1. The main building and the surrounding land, reception, fuel filling station and auxiliary structures; 2: the temporary cabins, storage building, vehicle repair workshop and carpentry workshop. Part 1 is not used; only maintenance work is carried out. Part 2 is partly utilized as a municipal waste recycling centre, and the vehicle repair workshop and carpentry workshop are rented out to local traders.
